E33G VISA: Second Home for Remote Workers

**DIRECTORATE GENERAL OF IMMIGRATION
REPUBLIC OF INDONESIA**

2024 Edition

CHAPTER 1

INTRODUCTION

Along with the global development of information and communication technology, remote working has become a prevailing trend. In response to this dynamic, the Directorate General of Immigration of the Republic of Indonesia introduces an innovative solution through the E33G Visa. This Limited Stay Visa is specifically designed to accommodate foreign remote workers who wish to make Indonesia their second home.

The E33G Visa provides full flexibility for Foreign Nationals to reside in the territory of the Republic of Indonesia while continuing to build their careers and receive financial compensation from companies based overseas. With a validity period of one full year and a Multiple Entry Re-entry Permit (MERP) facility, visa holders can freely travel across borders without losing their immigration status, providing spatial freedom that is crucial for today's digital professionals.

Besides professional purposes, the presence of this visa also allows remote workers to enjoy additional activities such as tourism, recreation, and socio-cultural visits. Indonesia, with premier destinations like Bali and Jakarta, offers an ideal ecosystem comprising world-class coworking spaces, robust digital connectivity, and natural wealth that supports work-life balance. Another administrative advantage is that the E33G Visa application absolutely does not require a guarantor or sponsor from a local entity.

CHAPTER 2

REQUIREMENTS AND FEES

To maintain the qualification standards of foreign nationals entering Indonesia, the Directorate General of Immigration has established a set of administrative and financial requirements that every E33G Visa applicant must fulfill. These requirements are designed solely to ensure that applicants are genuinely acting as professional remote workers who are financially independent.

A. Document Requirements

In general, every applicant is required to attach valid identity documents, including a national passport with a minimum validity of six months, a recent color photograph, a Curriculum Vitae, and an itinerary during their stay in Indonesia. As a specific requirement, applicants must include proof of an employment agreement (contract) with a company abroad. In addition, proof of funds in the form of a bank statement for the last three months with a minimum balance of USD 2,000 is required, along with proof of a fixed income or minimum salary of USD 60,000 per year.

B. Immigration Fees

The issuance of the E33G Visa is subject to Non-Tax State Revenue (PNBP) tariffs. The estimated total cost for a one-year stay is IDR 7,000,000, with the following details:

Fee Component	Amount (IDR)
Limited Stay Visa	500,000
Category II Visa Verification Fee	2,000,000
Limited Stay Permit (1 Year)	3,000,000
Multiple Entry Re-entry Permit (1 Year)	1,500,000

CHAPTER 3

PROCEDURES AND LEGAL PROVISIONS

In line with the commitment to digitalize public services, the entire E33G Visa application process is conducted electronically (online) through the official portal evisa.imigrasi.go.id. Applicants are required to register an account, fill in personal data accurately, and upload all required documents in digital format (PDF or JPEG). After the initial verification process is declared complete by the system, applicants will receive a notification to settle the PNBP payment, which can be done via international credit/debit networks or cross-border bank transfers.

The subsequent verification process by immigration officers takes approximately five working days. If approved, the Electronic Visa (eVisa) will be issued and sent directly to the applicant's email address. An important note to remember is that an issued eVisa has a validity period of 90 days. The applicant must use the visa to enter the Indonesian territory before this period expires; otherwise, the visa will be automatically canceled.

Applicable Legal Provisions

Every E33G Visa holder is absolutely subject to the jurisdiction and laws of the Republic of Indonesia, particularly the Minister of Law and Human Rights Regulation Number 22 of 2023 concerning Visas and Stay Permits. It must be strongly emphasized that holders of this visa are strictly prohibited from engaging in local employment that receives compensation from individuals or corporate entities legally established in Indonesia. The Limited Stay Permit (ITAS) and Multiple Entry Re-entry Permit (MERP) status will be automatically activated upon passing immigration checks at the airport. Violations of these visa limitations can result in administrative immigration sanctions, ranging from deportation to blacklisting.
